

DATA SHEET

BRUNISSEUR METALS

FOR FERROUS METALS - COPPER - BRONZE - BRASS - ZINC

0805

BLACK - BROWN - LIGHT BROWN

This Brunisseurs allows to colour and to skate by Oxidation Metals. For ferrous metals as well as zinc in black we use Black Brunisseur, for the copper, the bronze and the brass in black, brown and light brown we can use Black Brunisseur, Brown and light brown.

INSTRUCTIONS FOR USE:

We use on a not got coked up, extra clean metal, varnished and dry either in the brush, or in the tempered. The reaction is immediate.

This Brunisseur can be diluted in the water what allows to have various nuances.

After oxidation, rinse with Neutralizing 0804 before drying of the Brunisseur what will stop the reaction and will avoid the training of the rust in the drying.

After drying to protect the metal:

For the inside we can polish with wax 0730 and 0734 or oil with our Oil of protection 0860, for the outside to varnish with our Protec Rouille 0861 satiny or brilliant matt.

Cleaning of brushes: in the water.
